# Part II. Certification

# **Animal Health**

I, the undersigned official veterinarian, hereby certify, that the animal described in Box I.28.:

(\*) **EITHER** [does not come from the territory or part of the territory of a Member State or Norway which is the subject of restrictions for reasons of African horse sickness;]

# Temporary or permanent admission of a registered equine from the EU **GBHC661**

I.2 Certificate reference no.	I.2.a Original cert. no.

#### AH/E023 Establishment requirements

has not been obtained from a holding which was subject to prohibition for animal health reasons, which laid down at least one of the following conditions:

(\*)EITHER

[not all animals on the holding of species susceptible to the diseases mentioned hereafter were slaughtered and the prohibition lasted for at least:

(a) in the case of equidae suspected of having contracted dourine

(\*)EITHER Isix months beginning on the date of the last actual or possible contact with a sick or infected with *Trypanosoma equiperdum* animal;]]

(\*)OR [in the case of a stallion until the animal is castrated:]]

- **(b)** in the case of glanders as per GB requirements:
- (c) in the case of equine encephalomyelitis of any type

(\*)EITHER [six months as per GB requirements;]]

(\*)OR [in which equine encephalomyelitis has not occurred during the period of 6 months prior to the date of dispatch;]]

- (d) in the case of equine infectious anaemia as per GB requirements:
- (e) in the case of vesicular stomatitis,

(\*)EITHER [six months from the last case:]]

[in which vesicular stomatitis has not occurred during the period of 6 (\*)OR months prior to the date of dispatch;]]

- (f) in the case of rabies, one month from the last case;
- (g) in the case of anthrax, 15 days from the last case.]

(\*)OR

[following cases of dourine, glanders, equine encephalomyelitis of all types, equine infectious anaemia, vesicular stomatitis, rabies or anthrax, all animals on the holding of species susceptible to the disease in question were slaughtered or killed and the prohibition lasted for 30 days or 15 days in the case of anthrax, beginning on the day on which, following the destruction of the animals, the disinfection of the premises, was satisfactorily completed;]

#### AH/A116F Animal requirements (Vaccinations)

(\*)EITHER [was not vaccinated against African horse sickness;]

(\*)**OR** 

[was vaccinated against African horse sickness on ....... (insertdate);

\*)EITHER {at least two months prior to certification;}}

(\*)OR [at least two months prior to entry into the quarantine station;]]

#### AH/A726F Animal requirements

- (a) is a registered horse;
- (b) was examined today in compliance with GB requirements and found free of clinical signs of diseases and of obvious signs of ectoparasite infestation:
- (c) is not intended for slaughter under a national programme of infectious or contagious disease eradication:

#### AH/A731 Animal requirements (freedom from disease)

to the best of my knowledge, during the period of 15 days prior to the date of dispatch the animal has not been in contact with equidae infected or suspected of an infectious or contagious disease.

# Temporary or permanent admission of a registered equine from the EU GBHC661

I.2 Certificate reference no.	I.2.a Original cert. no.
