NORWEGIAN FOOD SAFETY AUTHORITY

STATEMENT CONCERNING FISH AND FISHERY PRODUCTS TO EGYPT

Issued as Addendum to Sanitary Certificate no.:

One of the main tasks of the Norwegian Food Safety Authority is to guarantee the wholesomeness and good quality of fish and fishery products exported from Norway.

To this end, chemical, physical, microbiological and sensory analyses are performed.

Chemical analyses of trace metals have been performed for fish and shellfish of commercial value, and the concentrations found were in all instances low and well below the permissible concentrations for those trace metals where the limiting values have been given by international regulating bodies.

The use of explosives to catch fish or shellfish, is prohibited by law in Norway.

Norwegian fishing areas are free from insecticides and fertilizers.

Fish and shellfish frozen according to the Norwegian regulations, do not contain harmful parasites.
