**Regarding the use of QR-codes on health certificates for fish and fishery products intended for export from the Kingdom of Norway to the People's Republic of China**

The Norwegian Food Safety Authority hereby informs that, due to the modernization of the Norwegian certificate issuance systems, the health certificate for fish and fishery products intended for export from the Kingdom of Norway to the People's Republic of China will incorporate QR-codes. This change will come into effect on June 16, 2025, not on June 2, 2025, as previously planned.

This letter is published on our website: [Eksport av fisk og sjømat til Kina](#).

Kind regards,

Maria Sværi Buskoven

Norwegian Food Safety Authority, Head Office
