Covering meat and meat products derived from bovine

II. Health attestation**11.1. Public health information**

I, the undersigned official veterinarian, declare that I am aware of the relevant provisions of the Regulations (EC) No 178/2002, (EC) No 852/2004, (EC) No 853/2004, and (EC) No 854/2004 and hereby certify that the meat of domestic animals described above was produced in accordance with those requirements.

1. The products are derived exclusively from animals subjected to sanitary and veterinary inspection before (ante-mortem) and after (post-mortem) slaughtering and found sound and free from contagious diseases;
2. The beef and beef products are derived from cattle born and raised in Norway;
3. The beef and beef products are from establishments authorized for export by Norwegian Food Safety Authority and are under its regular control;
4. The products were obtained from animals originating from countries officially free from infectious animal disease:
 - **Foot-and-mouth disease,**
 - **Rinderpest,**
 - **Rift Valley fever,**
 - **Bovine spongiform encephalopathy (BSE)** according to O.I.E.-guidelines. According to Resolution No. 20 (81st General Session May 2013) the OIE BSE risk status in Norway is negligible; and
5. The cattle from which the beef and beef products were derived from, were not subjected to a stunning process prior to slaughter, with a device injecting compressed air or gas into the cranial cavity or to a pithing process and which passed ante- and post mortem inspections and has been prepared in a manner to avoid contamination with the specified risk material in accordance to OIE;
6. The fresh meat and meat products do not contain Specified Risk Material as defined in Regulation (EC) No. 999/2001 laying down rules for the prevention, control and eradication of certain transmissible spongiform encephalopathies, as amended, and as defined in Norwegian legislation.
7. The animals come from premises not underlain restrictions by the competent authorities regarding anthrax – during last 20 days before slaughtering; no vaccination for anthrax has been carried out during 42 days before slaughtering;
8. The animals from which the meat was derived and the meat has been subject to surveillance programmes for veterinary drug residues and other toxic substances administrated by the competent authority. The results of the tests meet the European Community performance standards and have not provided any evidence to the presence of chemical/drug residues or toxic substances which could be harmful to human or animal health;
9. The products have been inspected and deemed fit for human consumption;
10. The products have been prepared, handled, stored and transported in accordance with the Norwegian and European regulations on food hygiene;
11. The products do not contain any antiseptic, food coloring, preservative or any other added product which can harm human health;
12. No harmful or foreign substances or chemical contaminants are found in the products.
13. "The products have a health mark/ an identification mark applied in accordance with Regulation (EC) No. 853/2004 Article 5, with specification of the number of the meat establishment."
14. The feeding of ruminants with proteins, meat-and-bone meal and greaves derived from ruminants has been banned and the ban has been effectively enforced;
15. The fresh meat and the meat used in meat products are derived from bovines tested negative for BSE according to the annual Norwegian Instruction on Monitoring and Control, the following qualify for sampling:
 - clinical suspect bovine animals of all ages, all bovine animals over 48 months of age which have died or been killed of other reasons as slaughtered for human consumption, except animals killed in the context of a disease eradication campaign,
 - all bovine animals over 48 months of age subject to special emergency slaughtering,
 - all bovine animals over 48 months of age (a) where there is any sign of abnormal condition at the ante-mortem inspection, (b) rejected for human consumption, or (c) died in the slaughterhouse or during transport to the slaughterhouse. The categories (a), (b), and (c) constitute the ante mortem animals ,
 - all bovine animals of unknown age, except when the animal is obviously younger than 48 months,
 - all bovine animals of unknown origin, as animals killed because of lack of traceability,
 - all imported bovine animals of all ages.
16. Animals of unknown traceability or imported to Norway are not permitted exported to Hong Kong.

Part II: Certification

II.a. Certificate reference number

II.b. Company's information no.

Box references:

- 1.8 Provide the code of territory as appearing in Part 4 of Annex VI of Book of Rules on procedures for import and transit, list of third countries approved for import, form and content of the Certificate or other documents accompanying the consignment, veterinary checks at the border on consignments of animals, aquaculture and products and by-products of animal origin or equivalent Part 1 of Annex II to Regulation (EU) No 206/2010 (SANCO /4787/2009)
- I.11 Place of origin: name and address of the dispatch establishment
- I.15 Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship) is to be provided
- I.20 Indicate total gross weight and total net weight
- I.23 For containers or boxes, the container number and the seal number (if applicable) should be included.
- I.28 Nature of commodity: Indicate "carcass-whole", "carcass-side", "carcass-quarters", "cuts" or "minced meat". Minced meat is boned meat that has been minced into fragments and that must have been prepared exclusively from striated muscle (including the adjoining fatty tissues) except heart muscle
Treatment type: If appropriate, indicate "boned"; "bone in"; "matured" and/or "minced". If frozen, indicate the date of freezing (mm/yy) of the cuts/pieces
- I.28 Treatment type: If appropriate, indicate "boned"; "bone in"; "matured" and/or "minced". If frozen, indicate the date of freezing (mm/yy) of the cuts/pieces
- The colour of the signature shall be different to that of the printing. The same rule applies to the stamp other than those embossed or watermarked.
