Regarding sanitary certificate and statement covering fish and fishery products for export from Norway

Norwegian Food Safety Authority (NFSA) hereby informs you of a new practice effective from October 2024, concerning sanitary certificates and statements for fish and fishery products from Norway.

Until now, statements have been issued solely on grey paper. Moving forward, the NFSA will gradually transition to issuing statements on both grey paper and paper in the same colour as the certificates.

Only the colour of the paper is changed; there are no changes to the content of the statements.

This letter is announced on our website under the topic export:

[3.9 Erklæringer som gjelder sertifikater \(mattilsynet.no\)](#)

Yours Sincerely

Marius Kallerud Beck
Acting Head of Section

Legal and International Affairs Department,
Section for International Affairs
Norwegian Food Safety Authority
