NORWEGIAN FOOD SAFETY AUTHORITY

STATEMENT CONCERNING GOOD MANUFACTURING PRACTICE

Our ref.:

Establishment:

Address:

Registration/Organization number:

The establishment is registered by the Norwegian Food Safety Authority and can produce additional food supplements from plant materials.

All EU legislation on food safety is implemented in the Norwegian legislation. The Norwegian Food Safety Authority hereby confirms that the establishment operates in compliance with the HACCP principle, which is in accordance with Good Manufacturing Practice described in the below-mentioned regulations and its amendments:

- Regulation (EC) No 178/2002 of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety
- Directive 2002/46/EC of the European Parliament and of the Council of 10 June 2002 on the approximation of the laws of the Member States relating to food supplements (Text with EEA relevance)
- Directive 2002/46/EC article 2a describes the approved forms as follows:
‘food supplements’ means foodstuffs the purpose of which is to supplement the normal diet and which are concentrated sources of nutrients or other substances with a nutritional or physiological effect, alone or in combination, marketed in dose form, namely forms such as capsules, pastilles, tablets, pills and other similar forms, sachets of powder, ampoules of liquids, drop dispensing bottles, and other similar forms of liquids and powders designed to be taken in measured small unit quantities
- Regulation (EC) No 852/2004 of the European Parliament and of the Council of 29 April 2004 on the hygiene of foodstuffs
