STATEMENT REGARDING THE NORWEGIAN CONTINUED ISSUING OF PET PASSPORTS IN ACCORDANCE WITH 2003/803

Statens tilsyn for planter, fisk, dyr og næringsmidler

As a consequence of the delayed implementation of 576/2013 and 577/2013, Norway was compelled to issue pet passports that were produced in accordance with 2003/803 in the period from 29. December 2014 until 1. June 2016.

This document is issued as a general information about this adapted solution and to verify that any Norwegian animal travelling within the EU/EEC with passports issued after 29th of December 2014 but before 1st June 2016, have a legal right to do so.

From 1st June 2016 the new passports modelled in accordance with Regulation (EU) No 576/2013 have been issued.

We hope all possible courtesy will be given to any Norwegians travelling abroad with their pets with passports issued within this period.

Yours Sincerely

Ole-Herman Tronerud
